

Category 1

(Results to reflect design)

Category 2

General (Composition by weight)

- Sand (no grade): 75%-85% (+/-)
- Silt + Clay: less than 25%
- OM: 3-5%
- PH: 6.5-8.0

Application

- Heavy use fields equipped with drainage lines.
Irrigation not necessarily part of the design as the soil will hold more moisture.

Notes:

- *Mix design can be adjusted to specifiers recommendations.*
- *Components used can be interchangeable to suit application (i.e. sand grade/organic amendments).*
- *We cannot guarantee subsequent testing of above products will always match above values.*
- *This report is for reference only.*

Category 3

General (Composition by weight)

- Sand (no grade): 60%-70% (+/-)
- Silt + Clay: Up to 40%
- OM: 3-5%
- PH: 6.5-8.0

Application

- Heavy use fields equipped with irrigation and drainage lines.

Notes:

- *Mix design can be adjusted to specifiers recommendations.*
- *Components used can be interchangeable to suit application (i.e. sand grade/organic amendments).*
- *We cannot guarantee subsequent testing of above products will always match above values.*
